SUMMARY

Skilled Front-End Engineer experienced in all stages of advanced web development. Proficient in HTML, CSS, JavaScript, React.js, Node.js, and Git. Able to work independently or as part of a team collaboratively.

CERTIFICATES

Trilogy Skills Bootcamp in Front-End Web Development, Skills for Life & EdX

London (Remot)

NOV 2022 - DEC 2023

- Completed a rigorous 16-week bootcamp, actively engaging in weekly projects and collaborating on 2 team projects.
- Proficiently utilized a versatile tech stack including HTML, CSS, JavaScript, React.js, Node.js, Git, Netlify, and Jest.
- Distinguished participation in a 12-week internship program at CheckHub, a prominent company headquartered in Brussels.
- Spearheaded the development of a comprehensive library of interactive, reusable UI components using Vue.js.
- Achieved substantial reductions in future maintenance efforts and notable enhancements in development efficiency.
- Integral member of Agile Scrum sprints, ensuring the integration of quality practices throughout the development lifecycle.

PROFESSIONAL EXPERIENCE

Front-End Development Coordinator, RealtyBloc

Vancouver (Remote)

JUL 2020 – NOV 2021

- Boosted realtor & agency websites by integrating custom WP templates with official real estate and mortgage API. Delivered dynamic data displays, enhancing user experience and client satisfaction.
- Spearheaded Scrum, boosting on-time releases by 20% with efficient front-end development & clear communication practices (release notes & reports). Increased collaboration & reduced rework suggest a positive impact on team morale and productivity.
- Directed the migration of legacy sites to new versions in collaboration with the customer care team, ensuring functionality and server stability, resulting in a 10% reduction in customer support tickets and streamlined upgrade processes.

Web Designer and Developer, Self-Employed

Tehran, Iran

FEB 2018 – JUL 2020

- Maintained a 95% client satisfaction rate by effectively communicating with clients, understanding their needs, and delivering timely updates.
- Designed and developed over 15 templates, including wireframes.
- Optimised the code base, reducing page load time by 50% and enhancing site performance.
- Engineered a successful crowdfunding platform for charity campaigns.
- Created a single-page interactive game app based on the client's vision.
- Translated client requirements into technical site concepts for bidding and initial planning.

Volunteer Front-End Developer, Iran's Web and Mobile Festival

Tehran, Iran

OCT 2017 – FEB 2018

- Co-developed a scalable management dashboard for contestants and judges.
- Developed a voting system using seamless third-party code that enabled contestants to collect votes directly from their websites and display the results on their management dashboard.

Front-End Developer, Venture Capital Khavarzamin (Anetwork, Adro, AdAd)

Tehran, Iran

SEP 2016 - DEC 2018

- Contributed to the development team at Anetwork that secured Series A funding (US\$3M) (details from Crunchbase) that led the investment in digital marketing startups like AdAd, Biding, DMC, and Adro.
- Collaborated with design and UX teams to develop reusable front-end UI components, slashing development time and boosting user engagement (reflected in improved sales metrics).
- Elevated code quality and strengthened software reliability by implementing meticulous acceptance testing protocols, leading to minimized errors and improved overall performance.
- Streamlined knowledge sharing and facilitated efficient product maintenance across teams by authoring comprehensive technical documentation.

Front-End Developer, Persian Tools

Tehran, Iran

APR 2014 - SEP 2016

- Accelerated client satisfaction and propelled a 50% increase in annual revenue by designing and implementing 15+ customized e-commerce and landing page templates within a bespoke PHP-core CMS.
- Reduced development time by 30% for 7 bespoke WordPress themes through aligning design elements with client needs, leading to lower client expenses and faster project delivery.
- Empowered clients through technical training sessions on website management (FTP, DNS, CMS), resulting in a 30% increase in client satisfaction and a 20% reduction in related support requests.

EDUCATION

Bachelor's Degree in Computer Science, Tabarestan University

Chalus, Iran

SEP 2009 – JUN 2013
